

## NEVADA GAMING REVENUE: LONG-TERM TRENDS

SELECTED STATEWIDE GAMING STATISTICS, 2000-2017, ALL NON-RESTRICTED LOCATIONS

CENTER FOR GAMING RESEARCH, May 2018

Figures included for total Nevada gaming, total slots, total games, blackjack, craps, sports book, and card games (poker) for the past decade.

### Definitions and Notes

Positions: total number of slot machines, plus total table games multiplied by six

WP: Win per position

WPD: Win per position per day

Units: total number of slot machines or table games

%Δ: the percentage change from the previous year's totals

Win Amount: the total amount won from gamblers, in thousands: add "000" for total win

%Δ: the percentage change from the previous year's totals

WPU: Win per unit: total win divided by total number of units

WUD: Win per unit per day

Win: Percentage of total money gambled (handle) that casinos kept; also known as hold percentage

Trend: the overall up/down trend for the years in question

All data taken from Nevada Gaming Revenue Reports for their respective years:

[http://gaming.nv.gov/gaming\\_revenue\\_rpt.htm](http://gaming.nv.gov/gaming_revenue_rpt.htm).
