

Nevada Bingo

1984 to 2017

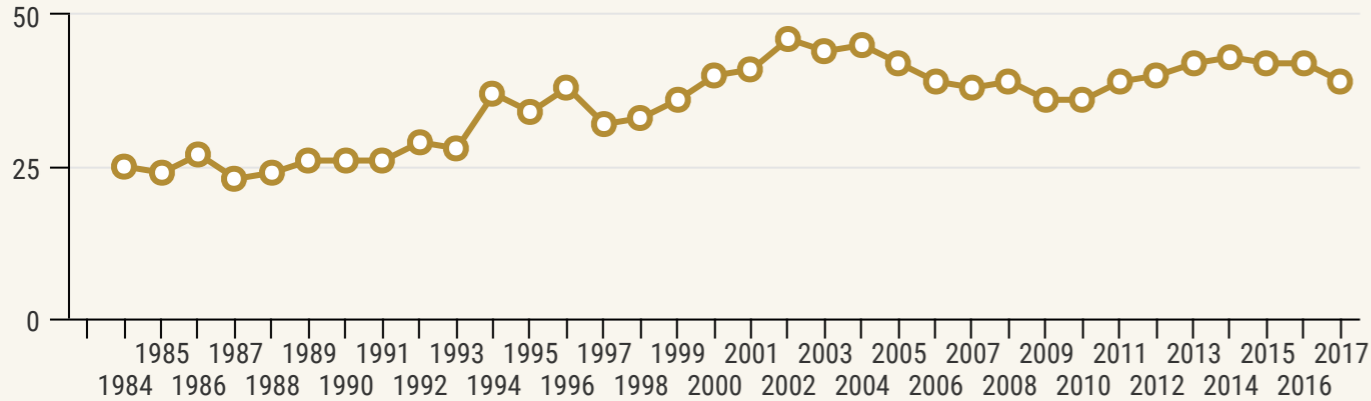

Some facts and figures about the game of bingo in Nevada casinos.

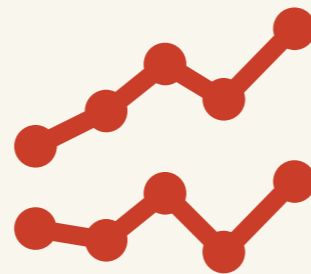

Since 1984, Nevada casinos have made an average of \$2,652,566 a year from the game itself.

Nevada Casinos With Bingo, 1984-2017

Bingo is one of Nevada casinos' least consistently profitable games; since 1984, the game has lost money for the state's casinos 10 times.

But since it draws repeat customers who also play casino games & spend on amenities, many casinos continue to offer it.

Rough Stretch

From 1988 to 1991, Nevada casino bingo lost money, on aggregate, every year.

\$14.4 million

Combined income from bingo for all Nevada casinos in 2017, their best year in history.

\$30,690.54
