

Nevada Gaming Statistics: October Comparison

Executive Summary of 10-Year Revenue and Handle Trends

This report compares monthly Nevada gaming results for October over the past ten years for selected reporting areas: Statewide, Las Vegas Strip, Downtown Las Vegas, Boulder Strip, and Washoe County.

October 2018 saw decent increases for the state as a whole, with some areas seeing slight decreases.

Statewide, total gaming win went up, with a 7.49% increase. Slot win was up 5.79% due to a slightly higher hold, while game win rose 10.83%, with game handle rising higher at a 15.86% increase. Baccarat fell 13.03%, paired with a 49.26% increase in baccarat handle, likely due to a 41.73% drop in baccarat hold.

On the **Las Vegas Strip**, total gaming win rose 12.24%. Slot win increased 8.58%, likely due to increases in both slot handle and slot hold. Game win grew 16.26%, with a game handle that increased a whopping 22.93%. Just as with statewide, baccarat saw a significant drop in both revenue and hold while the handle is comparably higher.

Downtown Las Vegas stayed flat with a 0.26% increase in overall win. Slot win also stayed flat with a slightly larger increase of 0.96%. Game win saw a slight loss of 1.30%, though game handle grew 10.23%, while hold fell 1.17%.

The **Boulder Strip**, a weathervane for local Las Vegas play, had a slight loss of 0.44% in overall win, with slot win also taking a slight loss at 1.84%. Conversely, game win rose an admirable 12.45%, with a hold gain of 32.74%.

Washoe County saw total gaming win decrease by 1.31%, with a slight increase of 0.40% in slot win. Game revenue fell 8.42%, with smaller decreases in game handle and hold.

Tables for Statewide, Las Vegas Strip, Downtown Las Vegas, Boulder Strip, and Washoe County follow.

Note: In 2015, poker tables began being included with the “Games” total.
